

MOUNTING KITS FOR DIESEL PARTICULATE FILTERS

rema.germany DPF mounting kits

- Comprehensive delivery program for all common diesel particulate filters for trucks and buses
- Improved corrosion protection * through manufacture in stainless steel
- Production with laser technology in OE production facilities
- All components required to install the DPF in one kit
- There is no need for time-consuming searching for individual clamps and seals
- High cost savings compared to individual purchase

* compared to OE; applies to most clamps and seals, as part of the rema.germany DPF mounting kits
